

# NERP Marine Biodiversity Hub

## Theme 1

National Monitoring,  
Evaluation and Reporting

Keith Hayes (CSIRO)

## Theme 2

Supporting Management of  
Marine Biodiversity

Tony Smith (CSIRO)

## Theme 3

National Ecosystems  
Knowledge

Scott Nichol (GA)

## Theme 4

Regional  
Biodiversity  
Discovery to  
Support Marine  
Bioregional  
Plans

Julian Caley  
(AIMS)

## Theme 5

Science  
and Policy  
Initiatives

1.1  
Collation and  
analysis of existing  
data sets

1.3  
Blueprint for  
monitoring  
ecosystems of  
the EEZ

1.2  
Analysis of  
approaches for  
monitoring  
biodiversity in  
Cwlth Waters

Keith Hayes,  
CSIRO

2.1  
Integrating  
social,  
economic and  
environmental  
values

Sarah Jennings,  
UTAS

2.2  
Integrating  
threats, values  
and assets for  
management

Piers Dunstan,  
CSIRO

2.3  
Landscape  
approaches to  
managing high  
priority  
conservation  
values

Task 1 – High  
conservation  
priority species  
(Tony Smith  
CSIRO)  
Task 2 –  
Marine benthic  
biodiversity  
(Roland Pitcher  
CSIRO)

2.4  
Supporting  
management of  
listed and rare  
species

Peter Kyne,  
CDU  
2.5  
White shark  
population and  
abundance  
trends  
Barry Bruce,  
CSIRO

3.1  
Shelf and  
canyon  
ecosystems -  
functions and  
processes

Scott Nichol,  
GA

Task 1 – Data  
discovery  
Task 2 – Data  
analysis and  
synthesis

3.2  
National maps  
of connectivity  
and  
biodiversity

Tim O'Hara,  
MV

Task 1 – Maps  
Task 2 –  
Datasets for  
squat lobsters,  
sharks, rays,  
teleosts

4.1  
Twenty-one  
day RV  
Solander  
Survey

Andrew  
Heyward,  
AIMS

5.1  
Great Barrier  
Reef  
World Heritage  
Area  
Integrated  
Monitoring

Paul Hedge,  
UTAS

Collaborators  
include:

GBRMPA  
NERP Env Dec  
NERP Marine  
NERP Tropical  
Ecosystem  
Hubs

CSIRO, UTAS,
